CHAIRPERSON QUOTE

As we look ahead to the Indonesian Petroleum Association (IPA) Convex 2025, we are reminded of the significant role that the energy sector plays in shaping Indonesia's future. The annual IPA Convex serves as a critical platform for industry leaders, policy-makers, and stakeholders to converge, collaborate, and chart the course for the nation's energy landscape. In 2025, this event will take on even greater importance as we navigate the evolving challenges and opportunities in the global energy market, including the shift towards sustainability, technological advancements, and the need for strategic investments. The discussions and insights generated at this Convex will be instrumental in driving Indonesia's energy transition while ensuring energy security and economic growth.

As we gather for IPA Convex 2025, we are presented with a unique opportunity to not only reflect on the progress made but also to set the stage for the future of Indonesia's energy sector. The themes of innovation, sustainability, and collaboration will be at the forefront of this year's agenda, fostering dialogue that will shape policies and strategies for years to come. We invite all participants to engage actively, share their expertise, and contribute to the collective goal of a resilient and prosperous energy future for Indonesia.

Hariadi Budiman

Chairperson IPA CONVEX 2025

IPA 2024 IN NUMBERS

IPA 2024 OVERVIEW

OVERVIEW

Gaining Momentum to Advance Sustainable Energy Security in Indonesia and the Region

Venue: Indonesia Convention Exhibition (ICE) BSD City

Duration: Three days

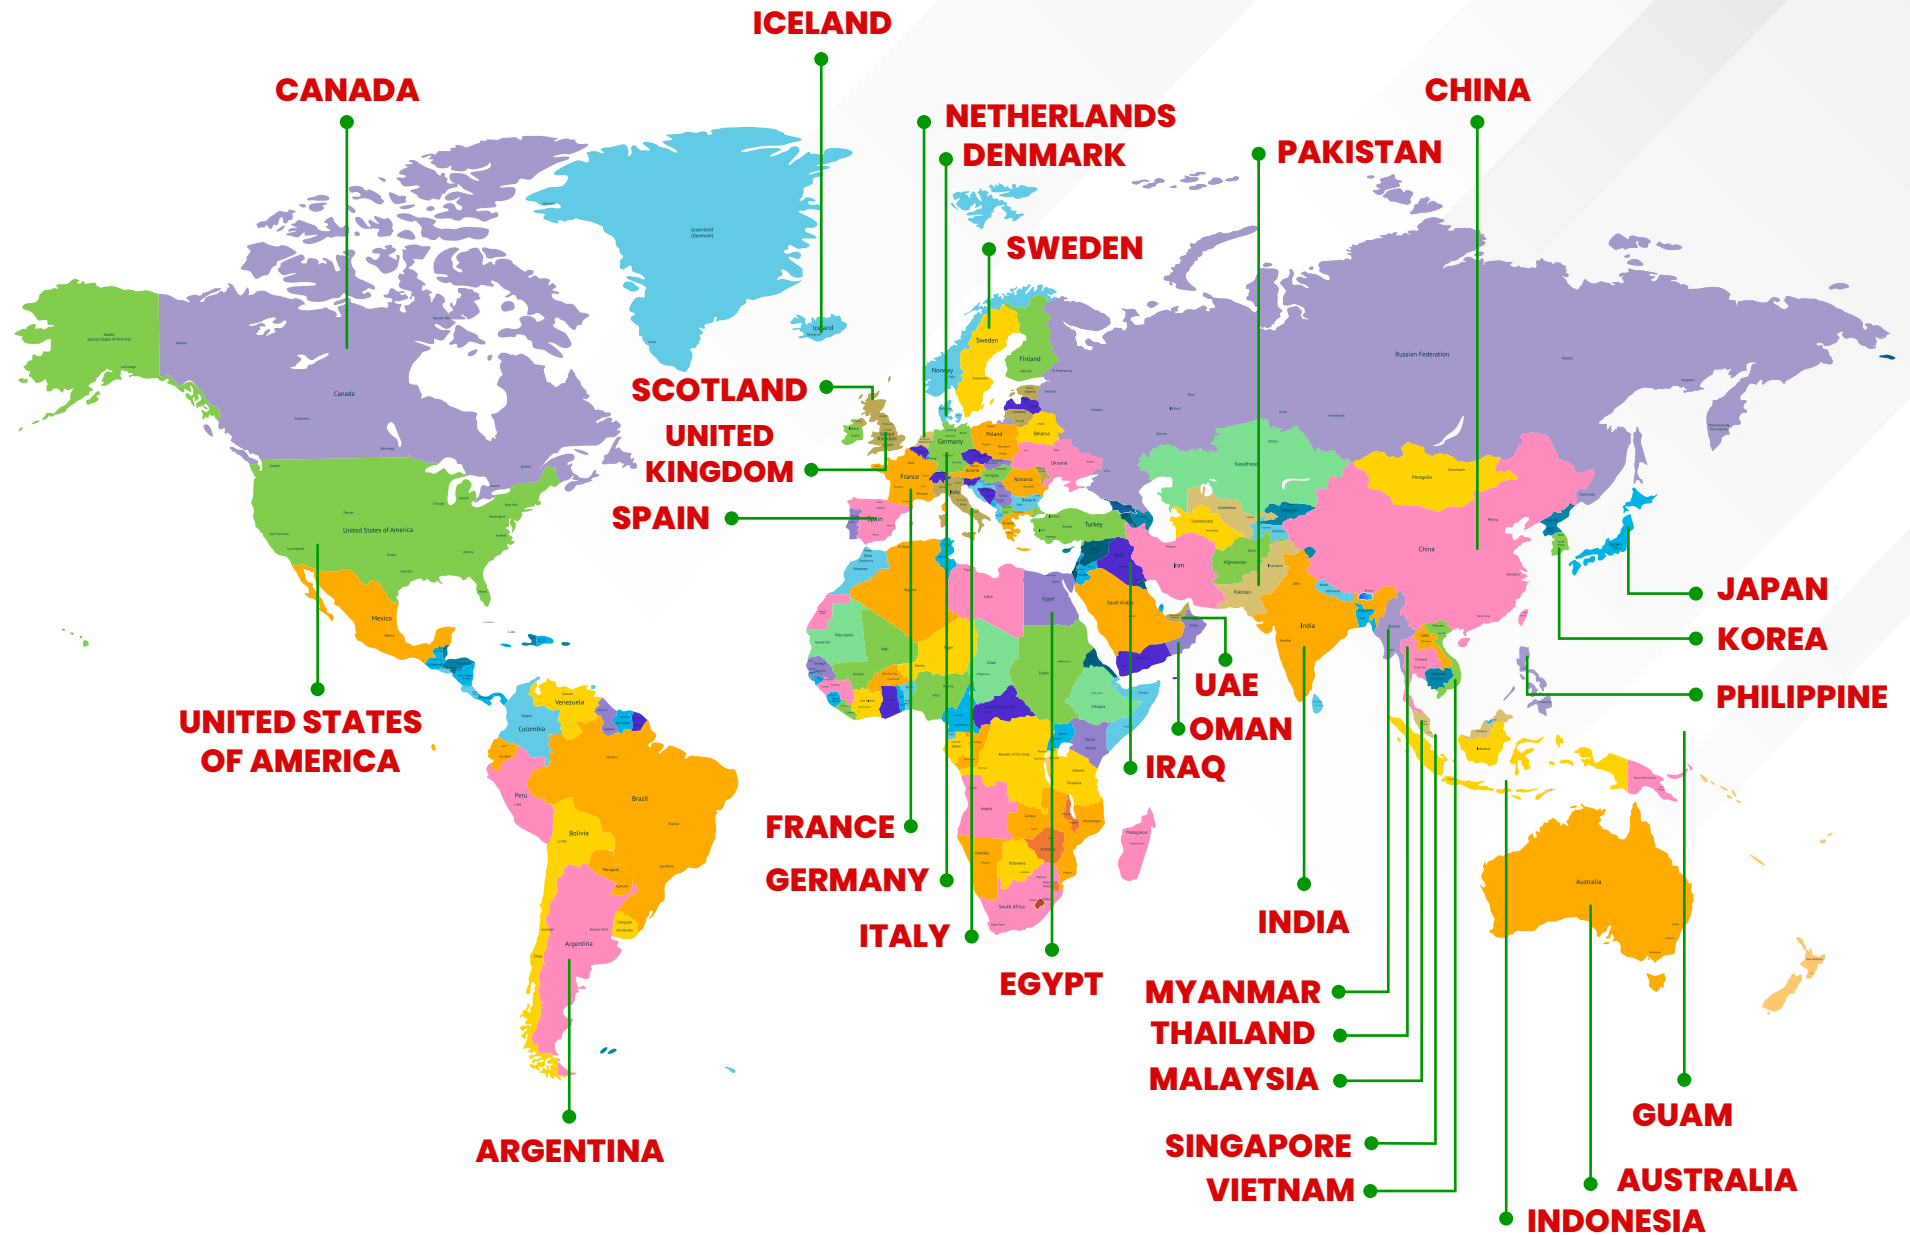

Frequency: Annually

The IPA Convex is the most significant event in the oil and gas industry in Southeast Asia. It typically brings together industry professionals, government representatives, academics, and other stakeholders to discuss the latest trends, technologies, challenges, and opportunities in the sector.

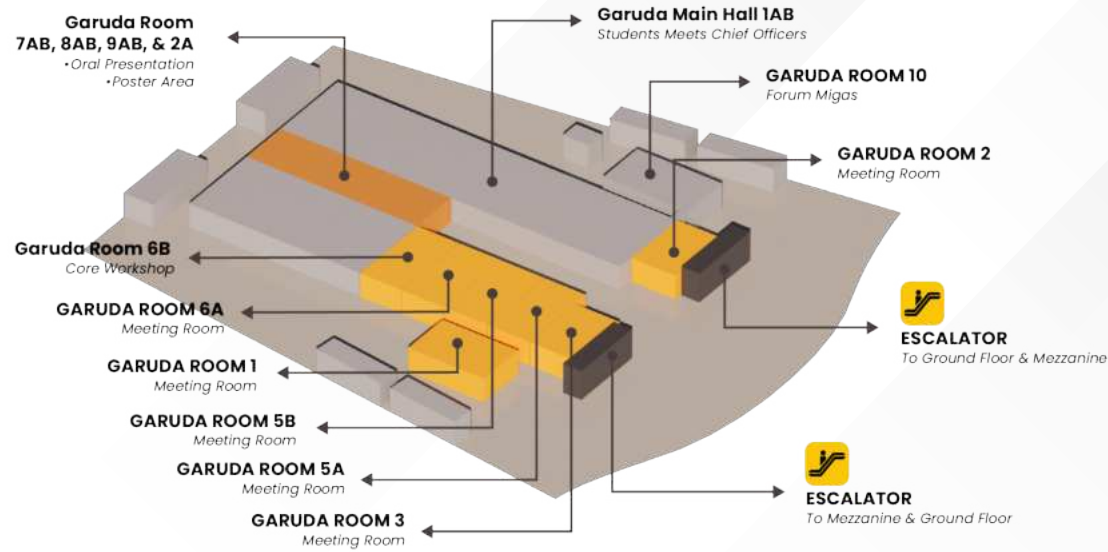

During the convention and exhibition, participants often engage in various activities such as technical presentations, panel discussions, workshops, networking sessions, and the exhibition of products and services related to the oil and gas industry.

The event serves as a platform for knowledge sharing, collaboration, and business development within the Indonesian oil and gas sector. It plays a crucial role in fostering innovation, promoting investment, and advancing the sustainable development of the industry in Indonesia.

CONVENTION

The Indonesian Petroleum Association Convention and Exhibition (IPA Convex) stands as Southeast Asia's pivotal oil and gas platform, hosting over 170 exhibiting companies and attracting more than 29,000 visitors. Over the course of 3 days at the Indonesia Convention Exhibition (ICE) in BSD City, IPA Convex actively encourages industry players and professionals to engage in discussions, workshops, and presentations centered around the latest advancements, challenges, and opportunities within the oil and gas sector.

This robust platform cultivates collaboration among experts, fosters business partnerships, and sparks innovation through interactive sessions and live demonstrations. Moreover, it serves as a central hub for unveiling pioneering solutions, exploring market trends, and addressing crucial issues that mold the industry's future. The convention features three key activities: Plenary Sessions, Innovative Energy Solutions, and Technical Programs.

PLENARY SESSION

Plenary Sessions bring together a distinguished lineup of speakers, including industry experts, government officials, and thought leaders, to discuss critical issues and emerging trends in the oil and gas sector. These sessions provide valuable insights, foster high-level discussions, and set the stage for shaping the industry's future, making them a must-attend for anyone looking to stay ahead in this dynamic field.

TECHNICAL PROGRAM

The Technical Program Committee (TPC) seeks the submissions of dedicated, motivated professional contributors; regarding the Oil & Gas Industry for the IPA Convention. The IPA CONVEX presents an opportunity for all to present and discuss your latest technology developments, applications and unique innovations. The TPC seeks the best presentations for exchanging knowledge and ideas through interaction among researchers, geoscientists, engineers, commercial and HSSE specialists, government officials, academics, and other professionals.

INNOVATIVE ENERGY SOLUTIONS

Innovative Energy Solutions, scheduled to take place on May 20-22, 2025, returns with a refreshed approach and rebranding from what was previously known as the Technology Session. This forum will serve as a key platform for sharing the latest information in the energy sector, providing deep insights into the challenges faced and the solutions needed within the industry.

The event will feature experienced professionals from the energy sector, ready to offer participants the latest perspectives and insights. Additionally, this forum will also serve as an effective marketing platform for sponsors, allowing them to showcase their products, services, and innovations to a relevant audience within the energy industry.
